TIGGY A762366 & BIRDY A762369

Mother/Daughter pair **TIGGY** and **BIRDY** are very bonded and must be adopted together. They lived their entire lives with one owner, who made the extremely difficult decision to bring them to AAC due to severe allergies in the family. They are currently living in a foster home with **TIGGY**'s other two 'kids' **FEZ** and **GENERAL** (the entire family would LOVE to be adopted together). **TIGGY** is definitely a people cat! She will walk right up to you for affection. **BIRDY** is a little shy with new people, but given time, she likes to snuggle as much as her mom. Both of them are lap cats. **TIGGY** and **BIRDY** have lived with dogs, but not with other cats (besides **FEZ** and **GENERAL**).

- ◆ **TIGGY** - 9 years old, torbie, spayed
