

DESPERATE HOUSECAT

TUNA A756393

A mysterious beauty, **TUNA** arrived at AAC in August with a large hoarding group and has been very fearful at the shelter. **She is easy to handle, quiet and lovely, tolerates petting and would do best in a home where her new owner will allow her lots of time to adjust to a new environment.**

TUNA is also unusual in that **she doesn't have a tail**. We don't know if this is genetic or the result of something else. We do know that **TUNA likes other cats**, so a home with another one or two would be fine. She hasn't told us if she likes children or dogs, so we would approach those situations cautiously, since she is a shy girl.

- ◆ 4 years old, American Shorthair, Tortoiseshell, spayed
- ◆ INTAKE: 8/18/2017
- ◆ Beautiful Bobtail (no tail), quiet and shy
- ◆ Very scared in shelter environment – needs patient, cat-savvy adopter
- ◆ Gets along with other cats
- ◆ Unknown around children and dogs

To adopt **TUNA**, visit www.austintexas.gov/departments/adopt-pet
