

DESPERATE HOUSECAT VEGA A837868

Sweet **VEGA** has been through a lot in the past year! She was brought to AAC in June 2021 after the owner she had her entire life abandoned her. She was quickly adopted, then returned to AAC months later because the other cat in the home didn't like her. **VEGA** has lived with other cats, dogs, children, and rabbits, and gets along with everyone! She's extremely loving and super cuddly. She's a very happy cat who **LOVES** humans. Her foster parent told us that **VEGA** enjoys zooming around for toys on occasion, and splits her downtime between a comfy bed and a lap. She wants nothing more than to knead you to sleep at night. **VEGA** has hyperthyroidism (which is very common in older cats), and she is currently on a very low dose of methimazole to keep her thyroid regulated (it's very inexpensive and she's easy to medicate).
