

# DESPERATE HOUSECAT WILLIAM A757679

When **WILLIAM** arrived at AAC as a stray, he had a small benign mass on his head, which our DVMs promptly removed. Through the entire process, he remained **friendly and sweet**. Once he recovered, we gave **WILLIAM** a much deserved break in a foster home. He's a little shy when you first meet him, but he warms up quickly. **ADORABLE BEHAVIOR:** He drinks water with his paw. **WILLIAM** is a lap cat, and enjoys belly rubs. He'll rub his head in your hands to get extra affection. **WILLIAM** has been living with other cats, but is somewhat nervous around them. **He would be happiest as the only pet in a quiet home.**
