

DESPERATE HOUSECAT ZEN A918032

ZEN is...well, Zen! He was brought to AAC with a number of wounds, some of which had abscessed. Because he needed many weeks of antibiotics, we moved him into a foster home for supportive care. He also had some ringworm, but through all of his treatments, **ZEN** was very tolerant and easy to handle. He made a complete recovery, and no longer requires any medication. **ZEN** is an absolute joy to have around. Not only is he adorable, but he loves to be petted, is playful, and is great with other cats. Adopt **ZEN** and add some Zen to your home!
