

DESPERATE HOUSECAT ANGUS 31417

Sadly, **ANGUS** found himself at AAS because his owner suddenly passed away. He was very **confused, scared, and lonely**, especially in the shelter environment, so we moved him into foster care. He has a bite history (he bit while being transported to the shelter), but this is **not his normal nature**. In his foster home, **ANGUS** needed just a few days to warm up to both his foster mom and his foster siblings. Now, he comes out, **circles his foster mom's legs, and LOVES being petted**. He is a very **gentle, sensitive soul**, and a **quiet household** (with or without other cats) would be best for him. He will need a little time to warm up, but once he does, **ANGUS** will be **SO affectionate**.
