DESPERATE HOUSECAT

CASSIA 24136

CASSIA is a **beautiful, sweet, and shy** girl. She arrived at AAS after being rescued from a community environment. Upon arrival, the DVM noticed that she has **chronic but stable eye conditions**, which are likely the result of previous URI and ulcerated corneas. Her right eye remains dilated and her left eye has collapsed a bit. **No treatment is required at this time**, and CASSIA's eyes are not painful. They should be monitored for any sudden changes as there is the potential for glaucoma to develop. In her foster home, CASSIA would often hide from her foster mom, but she was **easy to pet**, and she was **never aggressive**. As a member of our **Cactus Cats program** - http://austintexas.gov/page/cactus-cats, she is becoming more comfortable with people, and is learning to appreciate everything that humans are good for. CASSIA **will be happiest in a quiet home with a cat buddy**. She was friends with BEE in their foster home.

- **1 year old, apricot, long hair, spayed**
- **INTAKE: 4/11/2026**
