

DESPERATE HOUSECAT CHEVY 21246

CHEVY is a former community cat who was brought to AAS because her living situation was unsafe. She was born and raised in an auto body shop, and now she needs a safe place where she will be fed and given appropriate shelter. In return, **CHEVY** will be your working cat – perfect at providing natural pest control. She is a member of our **CACTUS CATS** program - <http://austintexas.gov/page/cactus-cats> because she is great with other cats, and finds comfort being with them. She was brought in with **MUSTANG**, but they do not need to be adopted together. If you adopt **CHEVY**, our Community Cats team will help with relocation.
