

DESPERATE HOUSECAT CHIP 6343

We LOVE the big-cheeked males! **CHIP** was brought to AAC from a cat community, and although he's been enjoying indoor life, we think he may be happiest living in a safe outdoor (or indoor/outdoor) environment. He needs to be provided with food and shelter, and in return he could be your 24/7 pest control. He's extremely shy with new people and is a member of our CACTUS CATS program -

<http://austintexas.gov/page/cactus-cats>. **CHIP**'s best situation will be a place where he has at least one cat friend to hang out with. He may never be a cat who is completely at ease around humans, but he deserves a chance to live the kind of life he is most comfortable with. **CHIP** is great buds with **FRITZ**, but they do not need to be adopted together.
