DESPERATE HOUSECAT

EDUARDO 29980

EDUARDO spent years living in the community (he may have been abandoned) until he was rescued and brought to AAS. His **left eye is small** or missing (there is no vision) due to a chronic issue, but it doesn't bother him. He is **very shy**, so we have placed **EDUARDO** in our **CACTUS CATS program** - http://austintexas.gov/page/cactus-cats. Now in foster care, he is **thriving**. He **makes it obvious when he wants to be petted**: he tilts his head and chirps. He wants to be petted slowly, and permission for one pet doesn't necessarily mean permission for the second. 😊 **He really needs someone to go slow!** He'll hide in a dark place during the day, but confidently comes out for mealtime and to see what's happening. **EDUARDO does very well with other cats.** He never growled at or was aggressive to his foster sibling. They've pleasantly enjoyed each other's company, and **his confidence boosted once they started spending time together.**

- **6 years old, brown tabby and white, long hair, neutered**
- **INTAKE: 7/14/2026**
- Very 'chirpy'; will sing songs while exploring
- **Loves to watch the outdoors**
- A bit afraid of the TV and of doors (gaining confidence with exposure)
- **Great with other cats; Unknown with dogs; Not recommended for children**
