

# DESPERATE HOUSECAT FRITZ 6053

**FRITZ** is a former community cat who was brought to the shelter because he was sick. He had a URI and he wouldn't eat. He was also extremely shy and didn't think humans were all that great. We moved **FRITZ** into a foster home, where he received the treatment he needed. He made a complete recovery, although sometimes he still has a sniffly nose (no treatment necessary). **FRITZ** is a **CACTUS CAT** - <http://austintexas.gov/page/cactus-cats>, and we think his best situation is to live outdoors (or indoor/outdoor). He would be happy to work for his food and shelter, as long as he has a cat buddy to hang with. **FRITZ** is good friends with **CHIP**, but they don't need to be adopted together.
