

# DESPERATE HOUSECAT GANDALF 14053

**Social! Playful! Cuddly!** **GANDALF** has it all! He was brought to AAC with severe pelvic fractures that caused the pelvic canal diameter to decrease while healing. He is energetic and often gets the zoomies, but sometimes stool gets backed up and becomes stuck when he's trying to poop. To prevent this, **GANDALF** is on a once-a-day stool softener (a softgel that is super easy to give him, very inexpensive, and over-the-counter). He has not had any constipation issues while on this softener, and will probably need to take it for the rest of his life. **GANDALF** is a lap cat (when he's finished playing and zooming around), and will snuggle with other cats if a human isn't around.

- ◆ **DOB: 4/20/2025, gray tabby, neutered**
- ◆ **INTAKE: 8/20/2025**
- ◆ Will do well in a home with or without a cat friend
- ◆ Very sweet; Lots of energy
- ◆ Affectionate; Lap cat
- ◆ Great with other cats;  
Probably fine with dogs and children
