

DESPERATE HOUSECAT HALLOWEEN 16976

HALLOWEEN is too stinkin' adorable for his own good! When he was just a couple of months old, he arrived at AAS with head trauma to the left side of his head. This injury eventually resulted in the loss of his left ear (and hearing on that side). Once he was well enough to have surgery, the inner portions of his left ear were removed so that he will not have problems with these structures in the future. **HALLOWEEN** is very energetic and sweet. He is extremely playful, and would love to have a cat buddy. He seems to prefer females to males, and they need to be as energetic as he is. **HALLOWEEN** needs a home where he can get plenty of playing and running around time. After he's tired himself out, he will climb into your lap without asking. 😊
