

DESPERATE HOUSECAT HANS 17556

Handsome **HANS** was brought to AAS, very thin, dirty and dehydrated. Despite how he felt, he was **extremely loving and social** with everyone he met. He was treated for a URI, and staff and volunteers gladly bathed him (he's that easy going). **HANS** moved into a foster home for supportive care, where he gained weight and made a complete recovery. He's a lap cat, and is **playful and cuddly**. All **HANS** needs now is a permanent home, with or without other cats, where he can **get three squares a day, and give/receive tons of love and affection**.
