

DESPERATE HOUSECAT JULIUS 25698

JULIUS isn't just handsome. He's **super sweet!** When he arrived at AAS, he had a **right femoral fracture, which was repaired with a pin, plate and screws.** He then moved into a foster home for supportive care (including weeks of kennel rest). He has made a **complete recovery** and has resumed normal activity without any issues. **JULIUS** is playful, and gets along wonderfully with other cats. He may be a **little shy** at first, but he warms up quickly. **JULIUS** will do best in a **quiet home**, with or without a cat buddy. He loves being petted, and is a huge purr machine.
