

DESPERATE HOUSECAT LOLA 6237

LOLA is as friendly as she is funny looking! She's been through a lot and has always maintained her sweet disposition. She's recovered from ringworm, and may have seasonal allergies and recurrent ear infections. The allergies are easily treated with cetirizine as needed, and regular ear cleanings help keep ear infections from recurring. Firehouse Westlake generously provided **LOLA** with two dental surgeries to remove most of her teeth. With her few remaining teeth, she still eats dry food, and will occasionally give love nips. **LOLA** is very affectionate, **LOVES** to be petted, and is playful. She wants to be near her humans, and is a lap cat. **LOLA** is great with other cats, and can be adopted into a home with or without a cat buddy.
