

DESPERATE HOUSECAT LUCY 13949

Adorable **LUCY** arrived at AAS with a fractured pelvis. She moved to foster care to complete her recovery, and she's now ready for her permanent home. She is **very sweet**, loves to cuddle, and is **not afraid of strangers**. **LUCY** enjoys watching the world outside, and likes to hang out on the couch with her human and watch tv. She is **playful and curious**, but if you're busy, she'll sit calmly and not bother you. **LUCY** is independent enough that she **does well being at home by herself** (and sometimes she likes her space). She's the perfect companion for most households.
