

DESPERATE HOUSECAT MUSTANG 21273

MUSTANG is a former community cat who was brought to AAS because his living situation was unsafe. He was born and raised in an auto body shop, and now he needs a safe place where he will be fed and given appropriate shelter. In return, **MUSTANG** will be your working cat – perfect at providing natural pest control. He is a member of our **CACTUS CATS** program - <http://austintexas.gov/page/cactus-cats> because he is great with other cats, and finds comfort being with them. He was brought in with **CHEVY**, but they do not need to be adopted together. If you adopt **MUSTANG**, our Community Cats team will help with relocation.
