

# DESPERATE HOUSECAT POCUS 15652

This handsome void can often be petted if you go slow and offer some Churu.

**POCUS** was brought to AAS with other outdoor kittens, and is ready to be a permanent indoor kitty. He is still shy, but is making great progress through our **CACTUS CATS** program - <http://austintexas.gov/page/cactus-cats>. **POCUS** is fantastic at the 'nose-boop', is playful, and is very comfortable with other cats. He will need time in a quiet household to adjust to new surroundings, and will probably be happiest with a cat buddy.
