

DESPERATE HOUSECAT ROSIE 13778

Lovely **ROSIE** was being cared for as a community cat, and was brought to AAS so she could find an indoor home. She had an **eye infection**, and spent several weeks in a foster home receiving supportive care. Although she is **very shy** and sometimes hisses, **ROSIE** could be handled and medicated. A member of our **CACTUS CATS** program - <http://austintexas.gov/page/cactus-cats>, she can **often be petted** (and likes it) by people she knows well. **ROSIE** will need time to adjust to a new environment and new humans, and **will do best in a quiet home with a cat friend**.
