

DESPERATE HOUSECAT ZIVKA 24415

Adorable **ZIVKA** is friendly, playful, and affectionate. When she and several other cats from the community arrived at AAS, she had some pelvic fractures. We moved her into a foster home for weeks of cage rest and supportive care. The fractures healed well with medical management, and she **did not require surgery**, although she was shaved all round in anticipation of such 😊. **ZIVKA** has returned to normal activity and doesn't appear to have any problems or lameness. She is great with other cats, and **would love to have a cat friend** in her new home. She can be a little shy when you first meet her, but it doesn't take long before **ZIVKA** is coming right up to you for attention.
